

**PROTECTIVE EQUIPMENT  
AIR RESPIRATORS**

**KASCO K80S-T8N HELMET**

These high quality, fiberglass, powered air-purifying helmet respirators provide NIOSH-approved protection against organic pesticides requiring a TC-23C type respirator. NIOSH Approval #TC-23C-1572.

**Features:**

- These helmets are pressurized by positive pressure with 8 CFM and are vented by one way valves.
- The K80S-T8N helmets feature a flip-up, Lexan visor with a tough fiber glass shell and adjustable headband for sizes up to 7. Can be worn with beards and spectacles.
- The blower/fan unit and battery are worn on a belt around the waist.
- The K80S-T8N(T) model has a 12-volt power cord that plugs into the tractors cigarette lighter socket for power to operate blower/fan unit and/or charge four hour battery.
- The K80S-T8N(G) model has a battery that provides four hours of operating time on a four hour charge.

**KASCO PROF 88 HELMET**

This powered air-purifying helmet respirator has fan blowers, batteries and filters all built into the helmet, giving you excellent freedom of movement infields or tighter working areas. The PROF 88 can run for four hours on its batteries, or continuously from a tractor or vehicle's power using the SP88 12-volt cigarette lighter socket cord. The internal batteries can be charged from the optional NC-9 Charger or from a tractor with the SP88 cord.

**NORTH HALF MASK AIR RESPIRATORS**

With a silicone face-piece, these respirators are available in half-mask with cradle suspension. Extended side flanges create good seal during talking and other facial motions. Cartridges low and farther back than many respirators for improved side vision. Exhalation valve with low breathing resistance. This unit is easily disassembled for cleaning.

**NORTH FULL FACE AIR RESPIRATORS**

The North 7600 Series full face-piece respirators are designed to provide eye, face and respirator protection while providing optimum comfort. Standard features include the dual cartridge silicone full face piece, chin cup, oral/nasal cup, and speaking diaphragm. While affording an over 200 degree field of vision, the hard coated polycarbonate

lens protects the wearer's eyes and face against irritating gases, vapors and flying particles. The polycarbonate lens also features optical properties similar to the Norton 180 Protective Spectacle to minimize distortion and astigmatism.

Stock No.	Description	Price
2701802	Half Mask Respirator (Medium)	\$39.00
2701806	Full Face Respirator (Medium/Large)	345.70
